Brian Bartolec

Let me first start off by wishing all of our members and their families a Happy New Year! May 2011 bring happiness, good health and prosperity to each and every person.

As we move into 2011, there are two immediate topics that we would like to bring to the attention of our membership. First, our 2011 Board approved Capital improvement list. Second, our schedule of events over the next two months as it relates to Annual club meetings and club By-Law amendments.

As always, staff training and service standards are at the top of our list. Each department head has scheduled training seminars with their respective Associations along with weekly motivation meetings to be conducted in house. In addition to our attention to your individual experience there will be several behind the scene improvements, and many improvements that will be visible to the entire membership. Below is a small overview of some of the projects we have scheduled this year.

1. Replacement of several computers for administrative needs to be replaced by June 2011.
2. Repair and addition of Treks Bridge System to all bridges to be completed by September 2011.
3. Replacement of 15 ton Air Conditioning unit (this will be the third of seven units) to be installed by February 2011.
4. Replacement of smoke detector system in main clubhouse to be installed by August 2011.
5. New golf rental sets and program for the golf operation. Sets to arrive by April 2011.
6. Golf Course access improvements and bulkhead repair during summer months of 2011.
7. Numerous areas on the golf course to be sodded.
8. Cryovac machine, immersion circulator and 6 burner stove with oven for kitchen.

All of these projects will take place with as little interruption to the membership as possible. For more detailed information on our 2011 plans please feel free to phone me directly.

As we move towards March 2011, there are a few important dates to mark on your calendars.

- Monday, February 28th, 7:00 PM, "Meet the Board Candidates Night"
- Monday, March 14th, 7:00 PM "Annual Meeting"

Please feel free to contact me directly if you have any questions about any of our club dates. Thank you and remember "a putt left short usually does not go in!"

Respectfully yours,

Brian Bartolec  
GM/COO

## GOLF TIP

### "Five-Star Follow Through"

Head Golf Professional, Andy Scrivner

Andy Scrivner

We have all experienced the feeling of ease after a good shot. The common statement after hitting a solid shot is "I swung so easy." A big part of this feeling is finishing your swing correctly.

A correct follow-through allows your belt buckle and shoulders to point at your target, while the majority of your body weight is over your front foot. If you are not getting to this balanced position, try flaring your front foot 15 degrees towards the target. This helps "unlock" your hips and allow more rotation in the follow-through. Don't forget; your body weight should predominately be over your front foot. Finish like a pro!

# Holidays at The Club

David May

Club Manager, David May

There is a saying that I remember hearing years ago from an older gentleman I had the pleasure of knowing. "Just keeping honest men honest" he would say. It is a saying that I think of at this time of year when we have worked on our service contracts here at the club. Linen companies and plumbers, food purveyors and paper goods suppliers, trash and recycling companies, cleaning companies and the list

goes on.

Last issue of the Newsletter I discussed opportunities that are explored to save the club money over both the short and long term. One area that we look at every year, and especially at the beginning of the year, is the contracts that we have with these local companies with whom we do business. These contracts are reviewed every year with most put out to bid, keeping a close eye on value and delivery of service. And from there negotiations begin, a company is selected, and an agreement is made to each parties mutual benefit.

Through these practices we work to get the best customer service at a fair and competitive price. Sometimes a new company will win out over someone who may have previously had the contract. But more often than not, it is the company with whom we had a previous agreement. The fact that they know how we conduct our business encourages them to remain diligent in their service and fair with their pricing because they know we never stop comparing. "Just keeping honest men honest" he used to say.

## From the Membership and Marketing Committee

Chairman, *George Cullen*

More and more people are finding out what we already knew. Pelican Marsh is not only a good place to live, but it's a great place to play golf. Almost 20% of all new residents to Pelican Marsh became members of the Club in 2010; in 2009 that figure was 14%.

We approved 22 golf members and 10 new social members in 2010 while adding 16 new dining members; a good year indeed.

The membership and marketing committee is focusing its marketing efforts on the Pelican Marsh and Pelican Bay communities this coming year. Kimberly Doerseln, our membership director, has the approval of the committee and the Board of Governors, to develop a marketing campaign which includes direct mail, print ads in both communities' newsletters, group and private tours, along with several open house receptions. We continue to improve our website presence; keeping the community and club positioned in the Southwest Florida/Naples marketplace.

Our goals for 2011 are to exceed the number of new members that joined us in 2010. To do this we need the support of our members. You are the best recruitment tool we have, thank you for your continued support.

## From the Membership Office

Membership Director, *Kimberly Doerseln*

Be sure to register your "**member referrals**" in the membership office. We appreciate members promoting our community and Club to their friends, and know that many will be entertaining friends from home in the season ahead. Members that register a prospective golf member referral, that joins us, will receive a \$1,000 credit a year for three years to their club account as a thank you. Members that recommend a social member referral that joins us will receive a \$300 credit for three years to their club account.

Remember, I'm here to extend an invitation in your name to prospective home owners and members; I will invite them to come for a tour and to be our "guests" to experience the Club. Thank you to all for your continued support.

# From the Greens

*Director of Golf Course Operations, Brook Maxwell*

*Brook Maxwell*

The season is upon us and we are about to approach the time of year, when our course gets the heaviest amount of play. We have endured some frosts and some adverse weather conditions but the course is holding up well. The cold weather we receive in the winter months, combined with the increased amount of cart traffic, contributes to our turfgrass being at its most vulnerable state. We appreciate the concerted effort and awareness by our members, every positive individual action helps and makes a difference; from ball mark and divot repair, to responsible cart driving. Keep it up in the months ahead!

The Golf Course Maintenance Department is taking advantage of the decrease in turf grass growth during the colder months. Our efforts will focus on “detailing” the property. You may have noticed an “improved” appearance in the Clubhouse grounds. Our Geraniums and Begonias came in wonderfully this year and in general, I believe this entire area is more aesthetically pleasing. We have added several drains throughout the cart paths to eliminate standing water; standing water anywhere is unsightly, especially if you are forced to drive through it. A lot of hours will be directed to the cleanup of fallen leaves, February and March are the worst months for oak trees dropping their leaves. Although this task may seem trivial; it is very important to stay on top of this, as appearance and turf health (available sunlight) are directly affected.

As these work details are being performed, it is our highest priority to respect the golfers and keep noise and movement to a minimum. Good luck to everybody in the upcoming major golf events and I will see you on the course.

## Etiquette Awareness Committee

*Assistant Golf Course Superintendent, Dan Brooks*

In our last Etiquette & Awareness Committee meeting we discussed a variety of items that golfers had brought to our attention in relation to golf course etiquette. The first thing that was mentioned was, at times golfers exiting the bunkers leave a trail of sandy footprints on the surface of the green. An easy remedy for this is to simply knock the sand off your shoes after exiting the bunker with the bunker rake while still in the rough. The second item was, occasionally the flagstick is being left in the hole while golfers are putting out. This may seem harmless, but in reality when you pull the flagstick out of the hole with the ball or balls still in the hole, the edge of the hole gets damaged and affects the putts into the hole for each group behind you. Also, it is a two stroke penalty if you putt from the green surface and make the putt with the flagstick in the hole. And the last item was, another item about flagsticks. Many instances of golfers dropping the flagsticks on the greens have been reported. These flagsticks were special ordered with the Laser Link Golf crystals installed inside of them and are quite expensive. Not only does this practice damage the flagstick itself, but it also leaves an impression in the green surface that interferes with ball roll. Thank you for your continued support, we look forward to hearing any ideas or suggestions that will contribute to the enhancement of the Pelican Marsh Golf Club.
